VI TÆNKER PÅ MILJØET – OG DIN KOMFORT

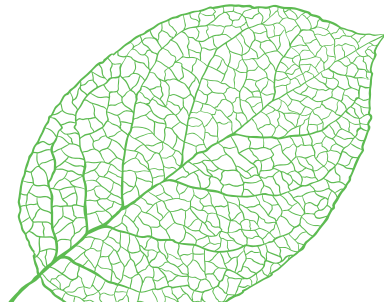

Du har valgt en Green Sport Facility virksomhed. Det betyder, at du automatisk er med til at passe på miljøet, da vi lever op til Green Sport Facility miljøkrav. Vi gør det let for dig at passe på miljøet uden, at det går ud over din oplevelse og komfort.

Vi håber, du får et behageligt og miljøvenligt ophold hos os.

WE THINK OF THE ENVIRONMENT – AND YOUR COMFORT

You have chosen a Green Sport Facility. This means that you are automatically helping to preserve the environment, as we meet Green Sport Facility environmental requirements. We make it easier for you to care for the environment without diminishing your experience and comfort.

We hope you will have an enjoyable and environmentally friendly stay with us.

VELKOMMEN I DET GRØNNE

Green Sport Facility tildeles sport- og idrætsanlæg, som gør en ekstra indsats for at beskytte miljøet. En Green Sport Facility virksomhed skal opfylde en række omfattende miljækraav om begrænsning af el-, vand- og varmekonsum og anvender miljøvenlige og økologiske produkter.

WELCOME TO THE GREEN WORLD

Green Sport Facility is awarded to sport facilities that make an extra effort to protect the environment. A Green Sport Facility business must comply with environmental criteria on saving electricity, water and heat consumption and using environmentally friendly organic products.

VI GØR DET LETTERE FOR DIG AT PASSE PÅ MILJØET

På energiområdet nedbringes CO₂-påvirkningen af klimaet med energibesparende belysning, styring af lys, varme og ventilation og meget andet. Virksomheden indrettes med vandbesparende toiletter, vandhaner og brusere, og rengøring og vask foregår under hensyntagen til miljøet. Desuden skal virksomheden udarbejde en miljøpolitik og løbende fastsætte nye mål for miljøarbejdet. Alt dette foregår med en løbende uddannelse og involvering af personalet.

Alle Green Sport Facility virksomheder bliver godkendt af et særligt panel af eksperter og kontrolleres løbende for at sikre, at de lever op til kravene.

WE MAKE IT EASIER FOR YOU TO CARE FOR THE ENVIRONMENT

Regarding energy the business reduces CO₂ climate impact by energy-efficient lighting, control on lighting, heating and ventilation. The business is equipped with water-saving toilets, faucets and showers and cleaning and washing is done with respect for the environment. In addition, the business must prepare an environmental policy and continuously set new goals for environmental work. All this is done with an ongoing education and involvement of the staff.

All Green Sport Facility companies will be approved by a special panel of experts and checked regularly to ensure that they meet the requirements.

HJÆLP OS MED AT VÆRE GRØNNE

Du har allerede gjort en indsats for at beskytte miljøet ved at benytte et anlæg med Green Sport Facility. Hvis du vil gøre mere kan du hjælpe ved at:

- Spare på vandet
- Drikke mere vand fra hanen og mindre kildevand
- Slukke lys, varme og aircondition, når der ikke er behov
- Sortere affaldet, så mest muligt kan genanvendes
- Gå, cykle eller benytte offentlig transport til og fra anlægget

HELP US STAY GREEN

You have already made an effort to protect the environment by using a Green Sport Facility. If you want to do more, you can help by:

- Saving water
- Drinking more tap water and less spring water
- Turning off the lights, the heat and the air conditioning when not needed
- Sorting your waste and recycling as much as possible
- Walking, cycling or using public transport whenever possible

KORT OM GREEN SPORT FACILITY

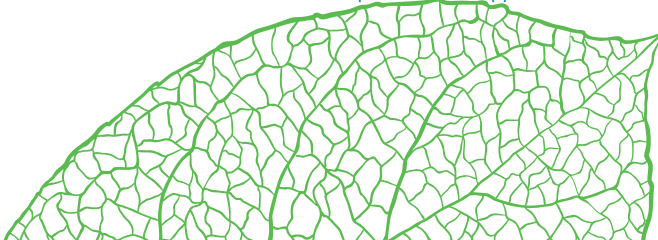

Green Sport Facility er et miljømærke for idrætsanlæg, som sportshaller, svømmeanlæg, sportspladser, skøjtehaller og arenaer. Ordningen er en søster-ordningen til Green Key og følger samme tankegang, principper og kontrolforanstaltninger som turismens internationale miljømærke.

Ordningen belønner anlæg, der tænker bæredygtigt og gør en ekstra indsats for at passe på miljøet og lokal området. Det sker ved både at gøre en indsats i forhold til eget anlæg, men også ved at informere og arbejde for at brugerne, foreningerne og samarbejdspartnere bidrager til og støtter op om det bæredygtige arbejde.

ABOUT GREEN SPORT FACILITY

Green Sport Facility is an eco-label for sport facilities, such as indoor and outdoor sport facilities, swimming pool facilities, skating rinks and arenas. The Green Sport Facility label is Green Key's sister label, therefore it follows the same way of thinking, principles and control measures as the tourism industry's international eco-label.

The scheme rewards facilities that think sustainably and makes an extra effort to take care of the environment as well as the local area. This is done by both improving the environmental efforts at their own facilities, but also by informing and engaging the users, the associations and partners to support and contribute to the sustainable efforts.
